Subject: Human Ethics Protocol 2020/708 - Approval

THIS IS A SYSTEM-GENERATED E-MAIL. PLEASE DO NOT REPLY. PLEASE REPLY TO human.ethics.officer@anu.edu.au.

Dear Dr Luis Furuya Kanamori,

Protocol: 2020/708
JEVID - Japanese Encephalitis Vaccination via IntraDermal route

I am pleased to advise you that your Human Ethics application received approval by the Chair of the HREC on 15/01/2021.

Approved. Thank you for your responses to the HREC concerns, as well as for providing relevant advice concerning insurance from the ANU Insurance Office. Can you please provide the Ethics Office with evidence of QIMR Berghofer HREC approval when it is available so all required approvals are with the protocol in the system? Thank you for providing updated participant-facing documentation as requested.

For your information:

1. Under the NHMRC/AVCC National Statement on Ethical Conduct in Human Research we are required to follow up research that we have approved.
Once a year (or sooner for short projects) we shall request a brief report on any ethical issues which may have arisen during your research or whether it proceeded according to the plan outlined in the above protocol.
2. Please notify the committee of any changes to your protocol in the course of your research, and when you complete or cease working on the project.
3. Please notify the Committee immediately if any unforeseen events occur that might affect continued ethical acceptability of the research work.
4. Please advise the HREC if you receive any complaints about the research work.
5. The validity of the current approval is five years' maximum from the date shown approved. For longer projects you are required to seek renewed approval from the Committee.

All the best with your research,

Human Ethics Officer
