Approval of the proposal

We inform you that the Research Ethics and Ethics Committee (E.H.D.E.) of the University of Western Attica (P.D.A.), at its 11th/05-04-2021 meeting, via video conference, examined the content of the research protocol titled "**The effect of a Pulmonary Rehabilitation program in the 10-year Fracture Risk of patients with Chronic Obstructive Pulmonary Disease (COPD)**" with protocol number 29509/31-03-2021 and Scientific Manager Ms. Grammatopoulou Irini.

Taking into consideration:

1. The application submission form
2. The research protocol
3. The consent form of the research participants

The Commission considered that it does not contradict the current legislation and is consistent with generally accepted rules of ethics and research ethics and research integrity in terms of the content and the way of conducting the research project by marking n a the explicit statement that non-participation in the study must be completed in the consent forms or withdrawing from the study will have no impact on the patient care provided.

The President of E.H.D.E
