**Approval Date:** 30/04/2023  
**Approval Number:** 2023/057  
**Expiry Date:** 29/04/2026

---

Dear Investigator/s,

Thank you for the Minimisation of Duplication Application. This was considered by the Human Research Ethics Committee (HREC) Reviewer, Professor Colleen Cartwright, and I am pleased to advise you that ethics approval has been granted for this research project. Please note the ethics approval number above.

Your responsibilities under this approval are as follows:

The Chief Investigator will:

1. immediately report anything that might warrant review of ethical approval of the project on the Adverse Events form;
2. immediately notify the SCU HREC, on the appropriate form, of any change in protocol;
3. report to the SCU HREC annually in the specified format and notify HREC when the project is completed;
4. notify the SCU HREC if the project is discontinued at a participating site before the expected completion date, with reasons provided;
5. notify the SCU HREC of any plan to extend the duration of the project past the approval period listed above and will submit any associated required documentation.

Researchers conducting a study in a country other than Australia, need to be aware of any protocols for that country and ensure that they are followed ethically and with appropriate cultural sensitivity.

Should you have any queries about the SCU HREC's consideration of your project please contact [ethics.lismore@scu.edu.au](mailto:ethics.lismore@scu.edu.au) . The SCU HREC Terms of Reference, membership and standard forms are available from <https://www.scu.edu.au/research/forms-and-downloads-document-downloads/>

SCU HREC wishes you every success in your research.

Kind Regards,

for  
Professor Colleen Cartwright  
Human Research Ethics Committee
