| Study Title | Is treatment of UTI with intravenous antibiotics at home via HITH at least as safe and effective as on the ward? A retrospective clinical audit of UTI patients admitted to ACT HITH services |

Dear Dr Cuthbert,

Thank you for your submission, dated 13 August 2024, for the above referenced research proposal.

At its meeting of 21 August 2024, the Committee noted and approved the following:

- Annual Project Progress Report, dated 6 August 2024
- An extension of ethical approval for one (1) year to November 2025
- Addition of the following personnel to the research team:
 - Dr Matthew Tweedale
 - Mr Harry Williams
 - Dr Karyn Cuthbert
 - CVs and GCP certificates for the above-mentioned personnel, provided with this submission
- Change of study title to: *Is treatment of UTI with intravenous antibiotics at home via HITH at least as safe and effective as on the ward? A retrospective clinical audit of UTI patients admitted to ACT HITH services*
- Extension of time period of interest to November 2022 to June 2024
- Addition of North Canberra Hospital as a participating site

The ACT Health Human Research Ethics Committee is constituted according to the National Statement on Ethical Conduct in Human Research 2023 and is certified for single review of multi-centre health and medical research. ACT Health HREC operates in compliance with applicable regulatory requirements and the principles of the International Conference on Harmonization Guidelines on Good Clinical Practice.

Yours sincerely,

Leah Medcraft-Smith
Ethics and Governance Manager
Research Office
