Furthermore, the principal investigator is required to notify the Secretary of the Institutional Ethics Committee the following:

1. Any significant change to the project and the reason for that change, including an indication of ethical implications (if any).
2. A delay of more than 12 months in the commencement of the project.
3. The inability of the principal researcher to continue in that role.
4. Any expiry of the insurance coverage provided with respect to sponsored clinical trials and proof of re-insurance;
5. Any unforeseen events or unexpected developments that could materially affect the approval
6. The Ethics Committee may conduct an audit/intermediate analysis if found necessary. All required data/documents must be provided to the Committee before further recruitment of cases;
7. Termination or closure of the project.

Additionally, the principal researcher/investigator is required to submit

- A Progress Report every 12 months for the duration of the project;
- A request for extension of the project prior to the expiry date, if applicable; and,
- A detailed Final Report at the conclusion of the project.

All research subject to the EHA Institutional Ethics Committee review must be conducted in accordance with the Ethical Guidelines for Biomedical Research on Human Participants published by Indian Council of Medical Research (ICMR).

Special conditions: None

Signed: Jameela George
